

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	27 June 2026
Team ID	
Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👥 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we analyze electricity consumption patterns across Indian states to understand the impact of COVID-19, identify regional variations, and support better energy planning?

Key rules of brainstorming

To run a smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP

You can select a sticky note and hit the pencil button to edit it (don't start drawing!)

Person 1

- Analyze month-wise electricity consumption trends
- Find the top and bottom electricity-consuming states
- Identify the impact of the lockdown period (March-June 2020)
- Compare electricity demand across different regions of India
- Compare electricity usage in 2019 and 2020
- Calculate the percentage drop in consumption during lockdown

Person 2

- Analyze post-lockdown recovery trends by state
- Create an interactive dashboard with filters
- Identify states that recovered the fastest
- Visualize state-wise electricity consumption on a map
- Study seasonal patterns in electricity demand
- Generate insights for policymakers and energy planners

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important notes as themes within your mind.

Group 1: Consumption Trend Analysis

Month-wise trends
2019 vs 2020 comparison
Seasonal patterns
Lockdown impact

Group 2: Regional Analysis

Region-wise comparison
Top and bottom consuming states
State-wise maps

Group 3: Recovery Analysis

Post-lockdown recovery
Fastest recovering states
Percentage recovery analysis

Group 4: Dashboard & Insights

Interactive dashboard
KPI cards
Recommendations for policymakers

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are Important and which are feasible.

20 minutes

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H** key on the keyboard.
